

WATER, WASTE WATER & STORMWATER APPROVED PRODUCTS NEW PLYMOUTH DISTRICT COUNCIL

SEPT 2023

These specifications cover the lists of materials acceptable for use within the New Plymouth District Council Water, Stormwater and Wastewater reticulation network. Products not in accordance with this list will be rejected unless written approval from Council is obtained prior to installation.

Rejected products and materials will be subject to removal at the Contractors or Subdivider's cost.

The lists of approved products will be updated yearly or at other times when four or more acceptable products need to be incorporated into the list.

All applications to the approved products list must be accompanied by the pro forma **Application Form Volume 1**.

Requirements for acceptance of materials are as follows:

- Conforms to appropriate New Zealand, Australian or British standards with evidence of licence number issued;*
- Manufacturer operates to an acceptable quality assurance standard;
- Details of composition, dimensions, specific use and design life are supplied by the manufacturer;
- Details of acceptance by other New Zealand local authorities;
- Details are supplied by the manufacturer on how the product should be installed;
- The product is acceptable to NPDC (taking into account such factors as compatibility with other approved products, ease of use, availability of supply, etc)

*Where there is no standard, the manufacturer will be required to supply the copies of their quality assurance procedures and producer statements to support their performance and composition claims for the products concerned.

Completed application forms and supporting information should be addressed to;

enquiries@npdc.govt.nz

Attention: Drainage Network Coordinator or Water Network Coordinator

Council reserves the right to refuse any material or fitting from the Approved Products List for any reason at any time. In such circumstances, Council will provide written notification, stating reasons why the material or fitting has been refused or removed from the Approved Products List.
