

Three Waters Education

Lets see
how much
water we use

Water usage

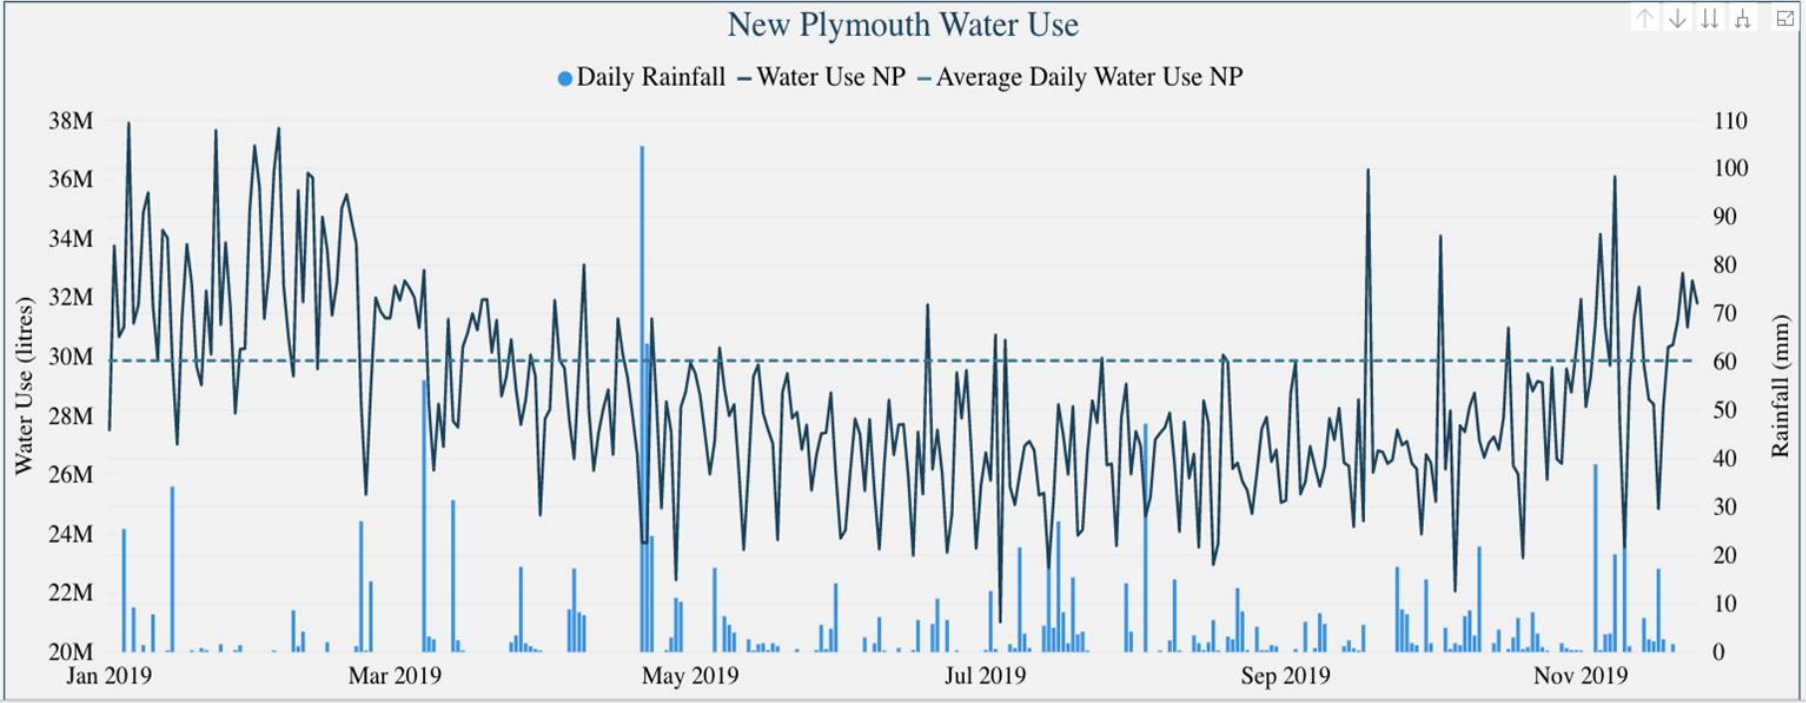

Water use over time

We don't use the same amount of water everyday.

If it's a sunny day or during summer we might use more; watering plants, washing clothes or in swimming pools.

Weekly water use and rainfall in 2019

Answer these questions about the graph

1. In which months do people use the most water?
2. When is the least water used?
3. What patterns can you see in the graph?
4. Do these patterns have anything to do with the weather or the seasons?
5. Why do you think these patterns occur?

Current water use graphs
